

This **FREE** interactive lecture will be led by
Professor David Mackey AO.

Why do we wear glasses?

You can learn about the optics, history and fashion of spectacles as well as the research into the genetic and environmental factors responsible for one of the biggest global epidemics ever of myopia. Also learn about research into treatments to prevent myopia and the alternatives to glasses.

Professor Mackey is a practitioner fellow with the National Health and Medical Research Council continuing his 30 year work into the genetic and environmental factors causing eye diseases particularly glaucoma and myopia.

WHEN

12pm, Monday
19 October 2020
